

## FMS-Architect

Your FMS II Customization Connection

# FMS II

Every organization is unique and the software they use should be able to meet their individual needs even as they change and grow...without continually investing major amounts of time and money.

At Mitchell Humphrey, we specialize in delivering robust e-business solutions that feature the built-in flexibility and versatility to allow for easy, fast and cost-effective installation and customization.

**FMS-Architect** is a set of customization tools that Mitchell Humphrey technical consultants can use to develop custom tables, screens, inquiries, and data entry applications tailored for your organization.

Most recently, FMS-Architect has been used to:

- *Develop a fully integrated project accounting solution for a Fortune 500 chemical company.*
- *Build a robust job costing ledger to track revenues and expenses for a major manufacturing firm.*

In addition, this highly flexible tool can be used to develop custom budgeting processes, contract management screens, timekeeping systems, and a host of other applications.

### THE RIGHT SOLUTION FOR YOUR ORGANIZATION

---

No matter what industry you're in or what function you perform, FMS-Architect can have a positive impact on time, money and decision making.
