

FMS-EXEC*Your Data Analysis/Ad-Hoc Reporting Tool***FMS II**

Capture and examine your financial data more effectively than ever before with **FMS-EXEC**, a powerful data analysis, ad hoc reporting and budgeting tool. FMS-EXEC works in concert with Excel or Lotus to provide fast and easy two-way data transfer capabilities between your FMS II accounting software and your favorite spreadsheet program.

Access to the data you need—when and how you need it—is critical to navigation in today's competitive marketplace. FMS-EXEC provides the directional compass you need to stay on top of your accounting operation.

With FMS-EXEC you can:

- ✓ **Create budgets quickly.** Rapidly download last year's actual data into predefined Excel or Lotus budget preparation worksheets, adjust as desired, and upload the new budget back into FMS II.
- ✓ **Prepare journal entries** in Excel or Lotus and **upload** into FMS II at your convenience.
- ✓ **Easily upload information** from external, non-FMS systems into FMS II. For example, import payroll details, including any statistical data, from your external payroll system directly into FMS II.
- ✓ **Share information** with other users. As an example, download a department's operating expense information for the month (actuals vs. budget) into a spreadsheet and quickly copy onto a diskette for the department manager to take home and review.
- ✓ **Perform what if scenarios.** Use FMS-EXEC to help you intelligently predict the bottom-line outcome of reorganizations, new product lines, mergers and acquisitions by bringing information into Lotus or Excel models.
- ✓ **Support multiple entities.** Download results from individual companies, divisions or units for review and adjustments then roll all of the information into one report.

Updating your Excel or Lotus reports is easy with FMS-EXEC's OLE capabilities. Simply embed an FMS II retrieval object into your spreadsheet, then click on the object to quickly connect to and retrieve data from FMS II.

THE RIGHT SOLUTION FOR YOUR ORGANIZATION

No matter what industry you're in or what function you perform, FMS-EXEC can have a positive impact on time, money and decision making.
