Government Software Solutions (GSS) is simple, yet powerful, software that aligns with strict state regulations.

Governments can increase the speed, ease, and accuracy of services to citizens.

Construction Project Management

- Search for permits based on block and lot, site address, owner name, owner address, etc.
- Track submissions, approvals, and rejections
- Links to GIS mapping

Rental Property Maintenance

- Organize violations, summons, court appearances, and closure of violations
- Identify and categorize vacant properties with Vacant Property Tracker
- Generate Notices of Violation letters with a few simple clicks

Land Use and Zoning

- Organizes meeting, planning, and recordkeeping, providing a place to record agendas, attendees, results, and meeting notes
- Monitors escrow accounting and generates low escrow letters with a few clicks
- Produces dozens of preformatted reports

Optimized Solution for New Jersey

- GSS software is set up to mirror the strict state regulations of New Jersey
- Originally written and developed by a New Jersey construction official

Our process helps us understand your needs, aligns our software to your workflow, and delivers easy, efficient implementation.

01 - Product Demo Setup

02 - Kickoff

07 - Ongoing Support
